Dear Mr. Carlson:-

Thank you for your subscription and remittance. The books will be out about the 25th and your copy shall be mailed to you at once.

I am glad you enclosed those reprints. I have followed your career for many years with a particular interest, because of my own long experience in Spanish paleography, which has been enough to make me understand the beauty and the difficulty of your profession.

That matter of forging fingerprints is particularly interesting.

With best wishes,

Sincerely Yours
